

SPIRITS BARRELS

REPURPOSED BARRELS

SPIRITS COLLECTION - REPURPOSED COGNAC/BRANDY BARRELS

Inheriting six generations of know-how, our second-hand department provides you with repurposed Cognac or Brandy barrels.

AROMAS EXALTATION

Benefiting from a privileged location in the heart of the Cognac vineyards, we have developed real know-how in the production of spirits barrels. Manufactured entirely in our premises, staves are collected from barrels of different capacities and vintages which have previously received Cognac or Brandy eaux-de-vie.

Each barrel is disassembled, refurbished, the curve reworked, to arrive at a final capacity of 190-200L to 500L (depending on arrivals). This storage solution is ideal for achieving a finish on your liquors and spirits. Marking a new encounter between the liquid and the wood, delicate notes of oak and Cognac/Brandy trapped in the walls of the wood are released and express themselves in perfect harmony.

Upon arrival, we can also provide you with sweet wines repurposed barrels.

PRECISE AND EFFICIENT TRACEABILITY

In order to ensure optimum product quality, the barrels are selected, checked and appraised by our team of professionals before each intervention.
